THE MIDDLEBY CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
OCTOBER 2, 2021
(Unaudited)

1) Summary of Significant Accounting Policies

a) Basis of Presentation

The condensed consolidated financial statements have been prepared by The Middleby Corporation (the "company" or "Middleby"), pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC"). The financial statements are unaudited and certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to such rules and regulations, although the company believes that the disclosures are adequate to make the information not misleading. These financial statements should be read in conjunction with the financial statements and related notes contained in the company's 2020 Form 10-K. The company's interim results are not necessarily indicative of future full year results for the fiscal year 2021.

In the opinion of management, the financial statements contain all adjustments, which are normal and recurring in nature, necessary to present fairly the financial position of the company as of October 2, 2021 and January 2, 2021, the results of operations for the three and nine months ended October 2, 2021 and September 26, 2020, cash flows for the nine months ended October 2, 2021 and September 26, 2020 and statement of stockholders' equity for the three and nine months ended October 2, 2021 and September 26, 2020.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the company to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the condensed consolidated financial statements and the reported amounts of revenues and expenses. Significant estimates and assumptions are used for, but are not limited to, allowances for doubtful accounts, reserves for excess and obsolete inventories, long-lived and intangible assets, warranty reserves, insurance reserves, income tax reserves, non-cash share-based compensation and post-retirement obligations. Actual results could differ from the company's estimates.

b) Non-Cash Share-Based Compensation

The company estimates the fair value of market-based stock awards and stock options at the time of grant and recognizes compensation cost over the vesting period of the awards and options. Non-cash share-based compensation expense was \$10.2 million and \$5.3 million for the three months period ended October 2, 2021 and September 26, 2020, respectively. Non-cash share-based compensation expense was \$27.1 million and \$14.4 million for the nine months period ended October 2, 2021 and September 26, 2020, respectively.

c) Income Taxes

A tax provision of \$54.9 million, at an effective rate of 23.8% was recorded during the three months period ended October 2, 2021, as compared to a \$18.2 million tax provision at an effective rate of 23.1% in the prior year period. A tax provision of \$97.7 million, at an effective rate of 20.2%, was recorded during the nine months period ended October 2, 2021, as compared to a \$46.5 million tax provision at a 23.0% effective rate in the prior year period.

d) Fair Value Measures

Accounting Standards Codification ("ASC") 820 "Fair Value Measurements and Disclosures" defines fair value as the price that would be received for an asset or paid to transfer a liability (an exit price) in the principal most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. ASC 820 establishes a fair value hierarchy, which prioritizes the inputs used in measuring fair value into the following levels:

Level 1 – Quoted prices in active markets for identical assets or liabilities.

Level 2 – Inputs, other than quoted prices in active markets, that are observable either directly or indirectly.

Level 3 – Unobservable inputs based the company's own assumptions.

The company's financial assets and liabilities that are measured at fair value and are categorized using the fair value hierarchy are as follows (in thousands):

	Fair Value Level 1	Fair Value Level 2	Fair Value Level 3	Total
<u>As of October 2, 2021</u>				
Financial Assets:				
Interest rate swaps	\$ —	\$ 1,465	\$ —	\$ 1,465
Financial Liabilities:				
Interest rate swaps	\$ —	\$ 30,750	\$ —	\$ 30,750
Contingent consideration	\$ —	\$ —	\$ 25,251	\$ 25,251
Foreign exchange derivative contracts	\$ —	\$ 3,400	\$ —	\$ 3,400
<u>As of January 2, 2021</u>				
Financial Liabilities:				
Interest rate swaps	\$ —	\$ 51,093	\$ —	\$ 51,093
Contingent consideration	\$ —	\$ —	\$ 25,558	\$ 25,558
Foreign exchange derivative contracts	\$ —	\$ 2,191	\$ —	\$ 2,191

The contingent consideration as of October 2, 2021 and January 2, 2021, relates to the earnout provisions recorded in conjunction with various purchase agreements. The earnout provisions associated with these acquisitions are based upon performance measurements related to sales and earnings, as defined in the respective purchase agreement. On a quarterly basis, the company assesses the projected results for each acquired business in comparison to the earnout targets and adjusts the liability accordingly.

e) Consolidated Statements of Cash Flows

Cash paid for interest was \$38.5 million and \$51.1 million for the nine months ended October 2, 2021 and September 26, 2020, respectively. Cash payments totaling \$98.9 million and \$28.0 million were made for income taxes for the nine months ended October 2, 2021 and September 26, 2020, respectively.

f) Earnings Per Share

“Basic earnings per share” is calculated based upon the weighted average number of common shares actually outstanding, and “diluted earnings per share” is calculated based upon the weighted average number of common shares outstanding and other dilutive securities.

The company’s potentially dilutive securities consist of shares issuable on vesting of restricted stock grants computed using the treasury method and amounted to 28,102 and 118,143 for the three months ended October 2, 2021, and September 26, 2020, respectively. The company’s potentially dilutive securities consist of shares issuable on vesting of restricted stock grants computed using the treasury method and amounted to 16,342 and 47,555 for the nine months ended October 2, 2021, and September 26, 2020, respectively. For the nine months ended October 2, 2021, the average market price of the company’s common stock exceeded the exercise price of the Convertible Notes (as defined below) resulting in 1,678,501 and 1,284,381 diluted common stock equivalents to be included in the diluted net earnings per share for the three and nine months ended October 2, 2021, respectively. There have been no conversions to date. See Note 12, Financing Arrangements for further details on the Convertible Notes. There were no anti-dilutive restricted stock grants excluded from common stock equivalents in any period presented.

2) Acquisitions and Purchase Accounting

The company accounts for all business combinations using the acquisition method to record a new cost basis for the assets acquired and liabilities assumed. The difference between the purchase price and the fair value of the assets acquired and liabilities assumed has been recorded as goodwill in the financial statements. The company recognizes identifiable intangible assets, primarily trade names and customer relationships, at their fair value using a discounted cash flow model. The significant assumptions used to estimate the value of the intangible assets include revenue growth rates, projected profit margins, discount rates, royalty rates, and customer attrition rates. These significant assumptions are forward-looking and could be affected by future economic and market conditions. The results of operations are reflected in the consolidated financial statements of the company from the dates of acquisition.

Termination of Welbilt Merger

As previously disclosed, on April 20, 2021, Middleby, entered into a Merger Agreement with Welbilt, Inc., a Delaware corporation ("Welbilt"), Middleby Marshall Inc., a Delaware corporation and a direct wholly owned subsidiary of Middleby ("Acquiror") and Mosaic Merger Sub, Inc., a Delaware corporation and direct wholly owned subsidiary of Acquiror ("Merger Sub"), which provided that, upon the terms and subject to the conditions set forth therein, Merger Sub would merge with and into Welbilt, with Welbilt surviving as an indirect, wholly-owned subsidiary of Middleby.

As previously disclosed, on July 13, 2021, Middleby announced that, under the terms of the Merger Agreement, it would not exercise its right to propose any modifications to the terms of the Merger Agreement and would allow the five-day match period to expire. Accordingly, on July 14, 2021, Welbilt delivered to Middleby a written notice terminating the Merger Agreement in accordance with Section 7.1(c)(iii) of the Merger Agreement and, concurrently with Middleby's receipt of the termination fee of \$110.0 million in cash from Welbilt, the Merger Agreement was terminated on July 14, 2021.

The termination fee received is reflected in the Condensed Consolidated Statements of Comprehensive Income as the "merger termination fee" and \$19.7 million of deal costs associated with the transaction are reflected in selling, general and administrative expenses in the Condensed Consolidated Statements of Comprehensive Income.

The following represents the company's significant acquisitions in 2021 and 2020 as well as summarized information on various acquisitions that were not individually material.

2020 Acquisitions

During 2020, the company completed various acquisitions that were not individually material. The estimated fair values of assets acquired and liabilities assumed are based on the information that was available as of the acquisition dates for the 2020 acquisitions and are summarized as follows (in thousands):

	Preliminary Opening Balance Sheet	Preliminary Measurement Period Adjustments	Adjusted Opening Balance Sheet

Net assets acquired and liabilities assumed	<u>\$ 134,295</u>	<u>\$ (1,304)</u>	<u>\$ 132,991</u>

The long-term deferred tax asset amounted to \$0.3 million and is related to the difference between the book and tax basis on other assets and liability accounts.

The goodwill and \$15.7 million of other intangibles associated with the trade names are subject to the non-amortization provisions of ASC 350. Other intangibles also include \$10.6 million allocated to customer relationships, \$26.2 million allocated to developed technology and \$6.3 million allocated to backlog, which are being amortized over periods of 6 to 9 years, 6 to 12 years, and 3 to 9 months, respectively. Goodwill of \$59.1 million and other intangibles of \$58.8 million of the companies are allocated to the Commercial Foodservice Equipment Group for segment reporting purposes. Of these assets, goodwill of \$24.4 million and intangibles of \$58.5 million are expected to be deductible for tax purposes.

Several purchase agreements include deferred payment and earnout provisions providing for contingent payments due to the sellers to the extent certain financial targets are exceeded. The deferred payments are payable between 2021 and 2022. The contractual obligations associated with the deferred payments on the acquisition date amount to \$8.2 million. The earnouts are payable between 2021 and 2023, if the company exceeds certain sales and earnings targets. The contractual obligations associated with the contingent earnout provisions recognized on the acquisition date amount to \$15.3 million.

The company believes that information gathered to date provides a reasonable basis for estimating the fair values of assets acquired and liabilities assumed, but the company is waiting for additional information necessary to finalize those fair values for various 2020 acquisitions. Thus, the provisional measurements of fair values set forth above are subject to change. The company expects to complete the purchase price allocation as soon as practicable but no later than one year from the acquisition date.

Novy Invest NV

On July 12, 2021, the company completed its acquisition of all of the capital stock of Novy Invest NV ("Novy"), a leading manufacturer of premium residential ventilation hoods and cook tops located in Belgium, for a purchase price of approximately \$250.9 million, net of cash acquired.

The following estimated fair values of assets acquired and liabilities assumed are provisional and are based on the information that was available as of the acquisition date to estimate the fair values of assets acquired and liabilities assumed (in thousands):

	Preliminary Opening Balance Sheet
Cash	\$ 16,152
Current assets	23,762
Property, plant and equipment	17,058
Goodwill	142,741
Other intangibles	126,557

Current liabilities	(23,440)
Long-term deferred tax liability	(33,918)
Other non-current liabilities	(1,930)
Net assets acquired and liabilities assumed	<u>\$ 267,008</u>

The long-term deferred tax liability amounted to \$33.9 million. The deferred tax liability is comprised of \$31.6 million related to the difference between the book and tax basis of identifiable intangible assets and \$2.3 million related to the difference between the book and tax basis on identifiable tangible asset and liability accounts.

The goodwill and \$89.5 million of other intangibles associated with the trade names are subject to the non-amortization provisions of ASC 350. Other intangibles also include \$33.9 million allocated to customer relationships, \$2.3 million allocated to developed technology and \$0.9 million allocated to backlog, which are being amortized over periods of 7 years, 7 years, and 3 months, respectively. Goodwill of \$142.7 million and other intangibles of \$126.6 million of the company are allocated to the Residential Kitchen Equipment Group for segment reporting purposes. Goodwill and other intangibles are not expected to be deductible for tax purposes.

Imperial Manufacturing Company

On September 24, 2021, the company completed its acquisition of all of the capital stock of Spenuzza, Inc. (dba Imperial Manufacturing Company) ("Imperial") located in Corona, CA, a manufacturer of ranges, fryers, ovens, countertop equipment and other specialty cooking products for commercial kitchens, for a purchase price of approximately \$127.3 million, net of cash acquired.

The following estimated fair values of assets acquired and liabilities assumed are provisional and are based on the information that was available as of the acquisition date to estimate the fair values of assets acquired and liabilities assumed (in thousands):

	Preliminary Opening Balance Sheet
Cash	\$ 347
Current assets	8,070
Property, plant and equipment	19,120
Goodwill	42,570
Other intangibles	65,230
Other assets	6
Current liabilities	(7,701)
Net assets acquired and liabilities assumed	<u>\$ 127,642</u>

The goodwill and \$35.5 million of other intangibles associated with the trade names are subject to the non-amortization provisions of ASC 350. Other intangibles also include \$28.3 million allocated to customer relationships, \$0.9 million allocated to developed technology and \$0.6 million allocated to backlog, which are being amortized over periods of 7 years, 7 years, and 3 months, respectively. Goodwill of \$42.6 million and other intangibles of \$65.2 million of the company are allocated to the Commercial Foodservice Equipment Group for segment reporting purposes and are expected to be deductible for tax purposes.

The company believes that information gathered to date provides a reasonable basis for estimating the fair values of assets acquired and liabilities assumed, but the company is waiting for additional information necessary to finalize those fair values for all 2021 acquisitions to date. Thus, the provisional measurements of fair values set forth above are subject to change. The company expects to complete the purchase price allocation as soon as practicable but no later than one year from the acquisition date.

Pro Forma Financial Information

In accordance with ASC 805 *Business Combinations*, the following unaudited pro forma results of operations for the nine months ended October 2, 2021 and September 26, 2020, assumes the 2020 and 2021 acquisitions described above were completed on December 29, 2019 (first day of fiscal year 2020). The following pro forma results include adjustments to reflect amortization of intangibles associated with the acquisition and the effects of adjustments made to the carrying value of certain assets (in thousands, except per share data):

	Nine Months Ended	
	October 2, 2021	September 26, 2020
Net sales	\$ 2,472,306	\$ 1,899,883
Net earnings	407,715	155,067
Net earnings per share:		
Basic	\$ 7.38	\$ 2.81
Diluted	\$ 7.21	\$ 2.81

The historical consolidated financial information of the company and the acquisitions have been adjusted in the pro forma information to give effect to pro forma events that are (1) directly attributable to the transactions, (2) factually supportable and (3) expected to have a continuing impact on the combined results. Pro forma data may not be indicative of the results that would have been obtained had these acquisitions occurred at the beginning of the periods presented, nor is it intended to be a projection of future results. Additionally, the pro forma financial information does not reflect the costs which the company has incurred or may incur to integrate the acquired businesses.

3) Litigation Matters

From time to time, the company is subject to proceedings, lawsuits and other claims related to products, suppliers, employees, customers and competitors. The company maintains insurance to partially cover product liability, workers compensation, property and casualty, and general liability matters. The company is required to assess the likelihood of any adverse judgments or outcomes to these matters as well as potential ranges of probable losses. A determination of the amount of accrual required, if any, for these contingencies is made after assessment of each matter and the related insurance coverage. The required accrual may change in the future due to new developments or changes in approach such as a change in settlement strategy in dealing with these matters. The company does not believe that any pending litigation will have a material effect on its financial condition, results of operations or cash flows.

4) Recently Issued Accounting Standards

Accounting Pronouncements - Recently Adopted

In August 2020, the FASB issued ASU No. 2020-06, "Debt-Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging-Contracts in Entity's Own Equity (Subtopic 815-40): Accounting for Convertible Instruments and Contracts in an Entity's Own Equity", which simplifies the accounting for convertible instruments by eliminating the requirement to separate embedded conversion features from the host contract when the conversion features are not required to be accounted for as derivatives under Topic 815, Derivatives and Hedging, or that do not result in substantial premiums accounted for as paid-in capital. By removing the separation model, a convertible debt instrument is reported as a single liability instrument with no separate accounting for embedded conversion features. This new standard also removes certain settlement conditions that are required for contracts to qualify for equity classification and simplifies the diluted earnings per share calculations by requiring that an entity use the if-converted method and that the effect of potential share settlement be included in diluted earnings per share calculations. Effective January 3, 2021, the company early adopted ASU 2020-06 using the modified retrospective approach. Adoption of the new standard resulted in an increase to the opening balance of retained earnings of \$5.1 million, a decrease to additional paid-in capital of \$79.4 million, and an increase to convertible senior notes of \$98.4 million. In addition, the company ceased recording non-cash interest expense associated with amortization of the debt discount and calculates earnings per share using the if-converted method to the extent those shares are not anti-dilutive.

In December 2019, the FASB issued ASU 2019-12, "Simplifying the Accounting for Income Taxes (Topic 740)", which removes certain exceptions related to the approach for intra-period tax allocation, the methodology for calculating income taxes in an interim period and the recognition of deferred tax liabilities for outside basis differences. This guidance also clarifies and simplifies other areas of ASC 740. This guidance is effective for annual reporting periods, and interim periods within those reporting periods, beginning after December 15, 2020 with early adoption permitted. The company adopted this guidance on January 3, 2021, and it did not have a material impact on the company's Consolidated Financial Statements upon adoption.

In January 2021, the FASB issued ASU 2021-01, "Reference Rate Reform (Topic 848)," which clarified that certain optional expedients and exceptions in Topic 848 for contract modifications and hedge accounting apply to derivatives that are affected by the discounting transition related to reference rate reform. The amendments in this update were effective immediately for all entities. The adoption of this guidance did not materially impact the company's Consolidated Financial Statements.

Accounting Pronouncements - To be adopted

On May 3, 2021, the FASB issued ASU 2021-04, Earnings Per Share (Topic 260), Debt—Modifications and Extinguishments (Subtopic 470-50), Compensation—Stock Compensation (Topic 718), and Derivatives and Hedging—Contracts in Entity's Own Equity (Subtopic 815-40): Issuer's Accounting for Certain Modifications or Exchanges of Freestanding Equity-Classified Written Call Options. This new standard provides clarification and reduces diversity in an issuer's accounting for modifications or exchanges of freestanding equity-classified written call options (such as warrants) that remain equity classified after modification or exchange. This guidance is effective for fiscal years beginning after December 15, 2021, including interim periods within those fiscal years. Early adoption is permitted, including adoption in an interim period. The company is currently evaluating the impacts the adoption of this guidance will have on its Consolidated Financial Statements and disclosures.

5) Revenue Recognition

Disaggregation of Revenue

The company disaggregates its net sales by reportable operating segment and geographical location as the company believes it best depicts how the nature, timing and uncertainty of its net sales and cash flows are affected by economic factors. In general, the Commercial Foodservice Equipment and Residential Foodservice Equipment Groups recognize revenue at the point in time control transfers to their customers based on contractual shipping terms. Revenue from equipment sold under the company's long-term contracts within the Food Processing Equipment group is recognized over time as the equipment is manufactured and assembled. The following table summarizes the company's net sales by reportable operating segment and geographical location (in thousands):

Contract Balances

Contract assets primarily relate to the company's right to consideration for work completed but not billed at the reporting date and are recorded in prepaid expenses and other in the Condensed Consolidated Balance Sheet. Contract assets are transferred to receivables when the right to consideration becomes unconditional. Accounts receivable are not considered contract assets under the revenue standard as contract assets are conditioned upon the company's future satisfaction of a performance obligation. Accounts receivable, in contracts, are unconditional rights to consideration.

Contract liabilities relate to advance consideration received from customers for which revenue has not been recognized. Current contract liabilities are recorded in accrued expenses in the Condensed Consolidated Balance Sheet. Non-current contract liabilities are recorded in other non-current liabilities in the Condensed Consolidated Balance Sheet. Contract liabilities are reduced when the associated revenue from the contract is recognized.

The following table provides information about contract assets and contract liabilities from contracts with customers (in thousands):

	Oct 2, 2021		Jan 2, 2021	
Contract assets	\$	20,955	\$	20,328
Contract liabilities	\$	132,984	\$	93,871
Non-current contract liabilities	\$	12,187	\$	13,523

During the nine months period ended October 2, 2021, the company reclassified \$14.0 million to receivables, which was included in the contract asset balance at the beginning of the period. During the nine months period ended October 2, 2021, the company recognized revenue of \$72.6 million which was included in the contract liability balance at the beginning of the period. Additions to contract liabilities representing amounts billed to clients in excess of revenue recognized to date were \$122.7 million during the nine months period ended October 2, 2021. Substantially, all of the company's outstanding performance obligations will be satisfied within 12 to 36 months. There were no contract asset impairments during the nine months period ended October 2, 2021.

6) Other Comprehensive Income

The company reports changes in equity during a period, except those resulting from investments by owners and distributions to owners, in accordance with ASC 220, "Comprehensive Income".

Changes in accumulated other comprehensive income⁽¹⁾ were as follows (in thousands):

	Currency Translation Adjustment	Pension Benefit Costs	Unrealized Gain/(Loss) Interest Rate Swap	Total

(1) As of October 2, 2021, pension and interest rate swap amounts are net of tax of \$(88.4) million and \$(7.5) million, respectively. During the nine months ended October 2, 2021, the adjustments to pension benefit costs and unrealized gain/(loss) interest rate swap were net of tax of \$0.7 million and \$5.6 million, respectively. As of September 26, 2020 pension and interest rate swap amounts are net of tax of \$(47.3) million and \$(15.3) million, respectively. During the nine months ended September 26, 2020, the adjustments to pension benefit costs and unrealized gain/(loss) interest rate swap were net of tax of \$1.3 million and \$(9.3) million, respectively.

Components of other comprehensive income were as follows (in thousands):

Comprehensive income	\$ 163,011	\$ 82,887	\$ 372,037	\$ 133,201

7) Inventories

Inventories are composed of material, labor and overhead and are stated at the lower of cost or market. Costs for inventory have been determined using the first-in, first-out ("FIFO") method. The company estimates reserves for inventory obsolescence and shrinkage based on its judgment of future realization. Inventories at October 2, 2021 and January 2, 2021 are as follows (in thousands):

	Oct 2, 2021	Jan 2, 2021
Raw materials and parts	\$ 369,221	\$ 263,200
Work-in-process	68,360	55,104
Finished goods	248,462	221,894
	\$ 686,043	\$ 540,198

8) Goodwill

Changes in the carrying amount of goodwill for the nine months ended October 2, 2021 are as follows (in thousands):

	Commercial Foodservice	Food Processing	Residential Kitchen	Total
Balance as of January 2, 2021	\$ 1,228,436	\$ 255,798	\$ 450,027	\$ 1,934,261

Balance as of October 2, 2021	\$ 1,266,296	\$ 251,984	\$ 587,902	\$ 2,106,182

The annual impairment assessment for goodwill and indefinite-lived intangible assets is performed as of the first day of the fourth quarter and since that assessment the company does not believe there are any indicators of impairment requiring subsequent analysis. This is supported by the review of order rates, backlog levels and financial performance across business segments.

9) Intangibles

Intangible assets consist of the following (in thousands):

	October 2, 2021			January 2, 2021		
	Estimated Weighted Avg Remaining Life	Gross Carrying Amount	Accumulated Amortization	Estimated Weighted Avg Remaining Life	Gross Carrying Amount	Accumulated Amortization
Amortized intangible assets:

Other accrued expenses	79,259	76,316
	<u>\$ 546,996</u>	<u>\$ 494,541</u>

11) Warranty Costs

In the normal course of business, the company issues product warranties for specific product lines and provides for the estimated future warranty cost in the period in which the sale is recorded. The estimate of warranty cost is based on contract terms and historical warranty loss experience that is periodically adjusted for recent actual experience. Because warranty estimates are forecasts that are based on the best available information, actual claims costs may differ from amounts provided. Adjustments to initial obligations for warranties are made as changes in the obligations become reasonably estimable.

A rollforward of the warranty reserve is as follows (in thousands):

	Nine Months Ended Oct 2, 2021
Balance as of January 2, 2021	\$ 69,667
Warranty reserve related to acquisitions	1,836
Warranty expense	54,164

Credit Facility

On January 31, 2020, the company entered into an amended and restated five-year, \$3.5 billion multi-currency senior secured credit agreement (as amended as described below, the "Credit Facility"). On August 21, 2020, the company entered into an amendment to the Credit Facility, prepaying \$400.0 million aggregate principal amount of its term loan obligations owed. The Credit Facility, as amended, is in an aggregate principal amount of \$3.1 billion, consisting of (i) a \$350 million term loan facility and (ii) a \$2.75 billion multi-currency revolving credit facility. The Credit Facility matures on January 31, 2025. The term loan facility amortizes in equal quarterly installments due on the last day of each fiscal quarter in an aggregate annual amount equal to 2.50% of the original aggregate principal amount of the term loan facility, with the balance, plus any accrued interest, due and payable on January 31, 2025. As of October 2, 2021, the company had \$1.1 billion of borrowings outstanding under the Credit Facility, including \$566.5 million of borrowings in U.S. Dollars, \$261.3 million of borrowings denominated in Euro, and \$321.9 million outstanding under the term loan. The company also had \$2.7 million in outstanding letters of credit as of October 2, 2021, which reduces the borrowing availability under the Credit Facility.

At October 2, 2021, borrowings under the Credit Facility accrued interest at a rate of 1.375% above LIBOR per annum or 1.00% above the highest of the prime rate, the federal funds rate plus 0.50% and one month LIBOR plus 1.00%. The average interest rate per annum, inclusive of hedging instruments, on the debt under the Credit Facility was equal to 2.78% at the end of the period. The interest rates on borrowings under the Credit Facility may be adjusted quarterly based on the company's Funded Debt less Unrestricted Cash to Pro Forma EBITDA (the "Leverage Ratio") on a rolling four-quarter basis. Additionally, a commitment fee based upon the Leverage Ratio is charged on the unused portion of the commitments under the Credit Facility. This variable commitment fee was equal to 0.20% per annum as of October 2, 2021. The term loan facility had an average interest rate per annum, inclusive of hedging instruments, of 2.60% as of October 2, 2021.

In addition, the company has other international credit facilities to fund working capital needs outside the United States. At October 2, 2021, these foreign credit facilities amounted to \$2.8 million in U.S. Dollars with a weighted average per annum interest rate of approximately 7.80%.

The company's debt is reflected on the balance sheet at cost. The fair values of the Credit Facility, term debt and foreign and other debt is based on the amount of future cash flows associated with each instrument discounted using the company's incremental borrowing rate. The company believes its interest rate margins on its existing debt are consistent with current market conditions and therefore the carrying value of debt reflects the fair value. The interest rate margin is based on the company's Leverage Ratio. The carrying value and estimated aggregate fair value, a level 2 measurement, based primarily on market prices, of debt excluding the Convertible Notes is as follows (in thousands):

	Oct 2, 2021		Jan 2, 2021	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Total debt excluding convertible senior notes	\$ 1,153,750	\$ 1,153,750	\$ 1,096,749	\$ 1,096,749

The company uses floating-to-fixed interest rate swap agreements to hedge variable interest rate risk associated with the Credit Facility. At October 2, 2021, the company had outstanding floating-to-fixed interest rate swaps totaling \$60.0

million notional amount carrying an average interest rate of 1.31% maturing in less than 12 months and \$802.0 million notional amount carrying an average interest rate of 1.91% that mature in more than 12 months but less than 66 months.

The company believes that its current capital resources, including cash and cash equivalents, cash expected to be generated from operation, funds available from its current lenders and access to the credit and capital markets will be sufficient to finance its operations, debt service obligations, capital expenditures, product development and expenditures for the foreseeable future.

The terms of the Credit Facility, as amended, limit the ability of the company and its subsidiaries to, with certain exceptions: incur indebtedness; grant liens; engage in certain mergers, consolidations, acquisitions and dispositions; make restricted payments; enter into certain transactions with affiliates; and requires, among other things, the company to satisfy certain financial covenants: (i) a minimum Interest Coverage Ratio (as defined in the Credit Facility) of 3.00 to 1.00, (ii) a maximum Total Leverage Ratio of Funded Debt less Unrestricted Cash to Pro Forma EBITDA (each as defined in the Credit Facility) of 5.50 to 1.00, and (iii) a maximum Secured Leverage Ratio of Funded Debt less Unrestricted Cash to Pro Forma EBITDA (each as defined in the Credit Facility) of 3.50 to 1.00; which may be adjusted to 4.25 to 1.00 for a four consecutive fiscal quarter period in connection with certain qualified acquisitions, subject to the terms and conditions contained in the Credit Facility. The Credit Facility is secured by substantially all of the assets of Middleby Marshall, the company and the company's domestic subsidiaries and is unconditionally guaranteed by, subject to certain exceptions, the company and certain of the company's direct and indirect material foreign and domestic subsidiaries. The Credit Facility contains certain customary events of default, including, but not limited to, the failure to make required payments; bankruptcy and other insolvency events; the failure to perform certain covenants; the material breach of a representation or warranty; non-payment of certain other indebtedness; the entry of undischarged judgments against the company or any subsidiary for the payment of material uninsured amounts; the invalidity of the company guarantee or any subsidiary guaranty; and a change of control of the company. At October 2, 2021, the company was in compliance with all covenants pursuant to its borrowing agreements.

On August 21, 2020, the company issued \$747.5 million aggregate principal amount of 1.00% Convertible Senior Notes maturing on September 1, 2025 (the "Convertible Notes") in a private offering pursuant to an indenture, dated August 21, 2020 (the "Indenture"), between the company and U.S. Bank National Association, as trustee. The Convertible Notes are general unsecured obligations of the company and bear interest semi-annually in arrears. The estimated fair value of the Convertible Notes was \$1.1 billion as of October 2, 2021 and was determined through consideration of quoted market prices. The fair value is classified as Level 2, as defined in Note 1 (d), Fair Value Measurements of this Quarterly Report on Form 10-Q. The if-converted value of the Convertible Notes exceeded their respective principal value by \$262.8 million as of October 2, 2021. The annual effective interest rate of the Convertible Notes following adoption of ASU 2020-06 is 1.5%.

The Convertible Notes were issued pursuant to the Indenture and bear interest semi-annually in arrears at a rate of 1.00% per annum on March 1 and September 1 of each year. The Convertible Notes are convertible based upon an initial conversion rate of 7.7746 shares of the company's common stock per \$1,000 principal amount of the Convertible Notes, which is equivalent to an initial conversion price of approximately \$128.62 per share of the company's common stock. The conversion rate will be subject to adjustment upon occurrence of certain specified events in accordance with the Indenture but will not be adjusted for accrued and unpaid interest. Additionally, in the event of a Fundamental Change (as defined in the Indenture), holders of the Convertible Notes may require the company to repurchase all or a portion of their Convertible Notes at a price equal to 100.0% of the principal amount of Convertible Notes, plus any accrued and unpaid interest to, but excluding, the repurchase date. Upon conversion, the company will pay cash up to the aggregate principal amount of the Convertible Notes to be converted and pay or deliver, as the case may be, cash, shares of common stock or a combination of cash and shares of common stock, at the company's election, in respect of the remainder, if any, of the company's conversion obligation in excess of the aggregate principal amount of the notes being converted.

The Convertible Notes will mature on September 1, 2025 unless they are redeemed, repurchased or converted prior to such date in accordance with their terms. The company may settle the conversions of the Convertible Notes in cash, shares of the company's common stock or any combination thereof at its election. The number of shares of the company's common stock issuable at the conversion price of \$128.62 per share is expected to be 5.8 million shares. As of October 2, 2021, there have been no conversions to date. For the nine months ended October 2, 2021, the average market price of the company's common stock exceeded the exercise price of the Convertible Notes resulting in 1,284,381 diluted common stock equivalents to be included in the diluted net earnings per share for the period.

The Indenture includes customary terms and covenants, including certain events of default after which the Convertible Notes may become due and payable immediately.

Capped Call Transactions

In conjunction with the pricing of the Convertible Notes, the company entered into privately negotiated capped call transactions in the aggregate amount of \$104.7 million ("Capped Call Transactions"). The Capped Call Transactions are expected generally to reduce the potential dilution and/or offset the cash payments the company is required to make in excess of the principal amount of the Convertible Notes upon conversion of the Convertible Notes in the event that the market price per share of the company's common stock is greater than the strike price of the Capped Call Transactions (which initially corresponds to the initial conversion price of the Convertible Notes and is subject to certain adjustments under the terms of the Capped Call Transactions), with such reduction and/or offset subject to a cap based on the cap price of the Capped Call Transactions. Under the Capped Call Transactions, the number of shares of common stock issuable at the conversion price of \$207.93 is expected to be 3.6 million shares. As of October 2, 2021, there have been no conversions to date. The Capped Call Transactions cover the number of shares of the company's common stock underlying the Convertible Notes, subject to anti-dilution adjustments substantially similar to those applicable to the Convertible Notes.

The Capped Call Transactions are separate transactions entered into by the company with the capped call counterparties, and are not part of the terms of the Convertible Notes and will not affect any holder's right under the Convertible Notes. Holders of the Convertible Notes will not have any rights with respect to the Capped Call Transactions. The Capped Call Transactions do not meet the criteria for separate accounting as a derivative as they are indexed to the company's stock. The premiums paid of the Capped Call Transactions have been included as a net reduction to additional paid-in capital with stockholders' equity.

13) Financial Instruments

ASC 815 "Derivatives and Hedging" requires an entity to recognize all derivatives as either assets or liabilities and measure those instruments at fair value. Derivatives that do not qualify as a hedge must be adjusted to fair value in earnings. If a derivative does qualify as a hedge under ASC 815, changes in the fair value will either be offset against the change in the fair value of the hedged assets, liabilities or firm commitments or recognized in other accumulated comprehensive income until the hedged item is recognized in earnings.

Foreign Exchange: The company uses foreign currency forward, foreign exchange swaps and option purchase and sales contracts to hedge its exposure to changes in foreign currency exchange rates. The company's primary hedging activities are to mitigate its exposure to changes in exchange rates on intercompany and third party trade receivables and payables. The company does not currently enter into derivative financial instruments for speculative purposes. In managing its foreign currency exposures, the company identifies and aggregates naturally occurring offsetting positions and then hedges residual balance sheet exposures. The fair value of the forward and option contracts was a loss of \$3.4 million at the end of the third quarter of 2021.

Interest Rate: The company has entered into interest rate swaps to fix the interest rate applicable to certain of its variable-rate debt. The agreements swap one-month LIBOR for fixed rates. The company has designated these swaps as cash flow hedges and all changes in fair value of the swaps are recognized in accumulated other comprehensive income. As of October 2, 2021, the fair value of these instruments was a liability of \$29.3 million. The change in fair value of these swap agreements in the first nine months of 2021 was a gain of \$16.2 million, net of taxes.

The following table summarizes the company's fair value of interest rate swaps (in thousands):

	Condensed Consolidated Balance Sheet Presentation		Oct 2, 2021	Jan 2, 2021
Fair value	Other assets	\$	1,465	\$ —
Fair value	Accrued expenses	\$	768	\$ 14,075
Fair value	Other non-current liabilities	\$	29,982	\$ 37,018

The impact on earnings from interest rate swaps was as follows (in thousands):

	Presentation of Gain/(loss)	Three Months Ended		Nine Months Ended	
		Oct 2, 2021	Sep 26, 2020	Oct 2, 2021	Sep 26, 2020
Gain/(loss) recognized in accumulated other comprehensive income	Other comprehensive income	\$ (340)	\$ (1,545)	\$ 7,117	\$ (44,949)
Gain/(loss) reclassified from accumulated other comprehensive income (effective portion)	Interest expense	\$ (4,461)	\$ (5,158)	\$ (14,691)	\$ (10,419)

Interest rate swaps are subject to default risk to the extent the counterparties are unable to satisfy their settlement obligations under the interest rate swap agreements. The company reviews the credit profile of the financial institutions that are counterparties to such swap agreements and assesses their creditworthiness prior to entering into the interest rate swap agreements and throughout the term. The interest rate swap agreements typically contain provisions that allow the counterparty to require early settlement in the event that the company becomes insolvent or is unable to maintain compliance with its covenants under its existing debt agreements.

14) Segment Information

The company operates in three reportable operating segments defined by management reporting structure and operating activities.

The Commercial Foodservice Equipment Group manufactures, sells, and distributes foodservice equipment for the restaurant and institutional kitchen industry. This business segment has manufacturing facilities in Arkansas, California, Colorado, Florida, Illinois, Michigan, New Hampshire, North Carolina, Ohio, Oregon, Pennsylvania, Tennessee, Texas, Vermont, Washington, Australia, Canada, China, Denmark, Estonia, Italy, Mexico, the Philippines, Poland, Spain, Sweden and the United Kingdom. Principal product lines of this group include conveyor ovens, combi-ovens, convection ovens, baking ovens, proofing ovens, deck ovens, speed cooking ovens, hydrovection ovens, ranges, fryers, rethermalizers, steam cooking equipment, food warming equipment, catering equipment, heated cabinets, charbroilers, ventless cooking systems, kitchen ventilation, induction cooking equipment, countertop cooking equipment, toasters, griddles, charcoal grills, professional mixers, stainless steel fabrication, custom millwork, professional refrigerators, blast chillers, coldrooms, ice machines, freezers, soft serve ice cream equipment, coffee and beverage dispensing equipment, home and professional craft brewing equipment, fry dispensers, bottle filling and canning equipment, and IoT solutions. These products are sold and marketed under the brand names: Anets, APW Wyott, Bakers Pride, Beech, BKI, Blodgett, Blodgett Combi, Bloomfield, Britannia, Carter-Hoffmann, Celfrost, Concordia, CookTek, Crown, CTX, Desmon, Deutsche Beverage, Doyon, Eswood, EVO, Firex, Follett, Frifri, Giga, Globe, Goldstein, Holman, Houno, IMC, Imperial, Induc, Ink Kegs, Inline Filling Systems, Jade, JoeTap, Jospet, L2F, Lang, Lincat, MagiKitch'n, Market Forge, Marsal, Meheen, Middleby Marshall, MPC, Nieco, Nu-Vu, PerfectFry, Pitco, QualServ, RAM, Southbend, Ss Brewtech, Star, Starline, Sveba Dahlen, Synesso, Tank, Taylor, Thor, Toastmaster, TurboChef, Ultrafryer, Varimixer, Wells, Wild Goose and Wunder-Bar.

The Food Processing Equipment Group manufactures preparation, cooking, packaging food handling and food safety equipment for the food processing industry. This business segment has manufacturing operations in Georgia, Illinois, Iowa, North Carolina, Oklahoma, Pennsylvania, Texas, Virginia, Washington, Wisconsin, Denmark, France, Germany, India, Italy, and the United Kingdom. Principal product lines of this group include batch ovens, baking ovens, proofing ovens, conveyor belt ovens, continuous processing ovens, frying systems and automated thermal processing systems, grinders, slicers, reduction and emulsion systems, mixers, blenders, formers, battering equipment, breading equipment, seeding equipment, water cutting systems, food presses, food suspension equipment, filling and depositing solutions, forming equipment, automated loading and unloading systems, food safety, food handling, freezing, defrosting and packaging equipment. These products are sold and marketed under the brand names: Alkar, Armor Inox, Auto-Bake, Baker Thermal Solutions, Burford, Cozzini, CV-Tek, Danfotech, Deutsche Process, Drake, Glimek, Hinds-Bock, Maurer-Atmos, MP Equipment, Pacproinc, RapidPak, Scanico, Spooner Vicars, Stewart Systems, Thurne and Ve.Ma.C.

The Residential Kitchen Equipment Group manufactures, sells and distributes kitchen equipment for the residential market. This business segment has manufacturing facilities in California, Michigan, Mississippi, Wisconsin, Belgium, France and the United Kingdom. Principal product lines of this group are ranges, cookers, stoves, cooktops, microwaves, ovens, refrigerators, dishwashers, undercounter refrigeration, wine cellars, ice machines, ventilation equipment and outdoor equipment. These products are sold and marketed under the brand names: AGA, AGA Cookshop, Brava, EVO, La Cornue, Leisure Sinks, Lynx, Marvel, Mercury, Novy, Rangemaster, Rayburn, Redfire, Sedona, Stanley, TurboChef, U-Line and Viking.

The accounting policies of the segments are the same as those described in the summary of significant accounting policies. The chief operating decision maker evaluates individual segment performance based on operating income.

15) Employee Retirement Plans

(a) Pension Plans

U.S. Plans:

The company maintains a non-contributory defined benefit plan for its union employees at the Elgin, Illinois facility. Benefits are determined based upon retirement age and years of service with the company. This defined benefit plan was frozen on April 30, 2002, and no further benefits accrue to the participants beyond this date. Plan participants will receive or continue to receive payments for benefits earned on or prior to April 30, 2002 upon reaching retirement age.

The company maintains a non-contributory defined benefit plan for its employees at the Smithville, Tennessee facility. Benefits are determined based upon retirement age and years of service with the company. This defined benefit plan was frozen on April 1, 2008, and no further benefits accrue to the participants beyond this date. Plan participants will receive or continue to receive payments for benefits earned on or prior to April 1, 2008 upon reaching retirement age.

The company also maintains a retirement benefit agreement with its former Chairman ("Chairman Plan"). The retirement benefits are based upon a percentage of the former Chairman's final base salary.

Non-U.S. Plans:

The company maintains a defined benefit plan for its employees at the Wrexham, the United Kingdom facility. Benefits are determined based upon retirement age and years of service with the company. This defined benefit plan was frozen on April 30, 2010 and no further benefits accrue to the participants beyond this date. Plan participants will receive or continue to receive payments for benefits earned on or prior to April 30, 2010 upon reaching retirement age.

The company maintains several pension plans related to AGA and its subsidiaries (collectively, the "AGA Group"), the most significant being the Aga Rangemaster Group Pension Scheme in the United Kingdom. Membership in the plan on a defined benefit basis of pension provision was closed to new entrants in 2001. The plan became open to new entrants on a defined contribution basis of pension provision in 2002, but was generally closed to new entrants on this basis during 2014. In December 2020, it was agreed that the Group Pension Scheme would be closed to future pension accruals effective April 5, 2021.

The other, much smaller, defined benefit pension plans operating within the AGA Group cover employees in France and the United Kingdom. All pension plan assets are held in separate trust funds although the net defined benefit pension obligations are included in the company's consolidated balance sheet.

The following table summarizes the company's net periodic pension benefit related to the AGA Group pension plans (in thousands):

	Three Months Ended		Nine Months Ended	
	Oct 2, 2021	Sep 26, 2020	Oct 2, 2021	Sep 26, 2020
Net Periodic Pension Benefit:

	<u>\$ (11,169)</u>	<u>\$ (9,500)</u>	<u>\$ (33,684)</u>	<u>\$ (28,086)</u>

The pension costs for all other plans of the company were not material during the period. The service cost component is recognized within Selling, general and administrative expenses and the non-operating components of pension benefit are included within Net periodic pension benefit (other than service cost) in the Condensed Consolidated Statements of Comprehensive Income.

(b) Defined Contribution Plans

The company maintains two separate defined contribution savings plans covering all employees in the United States. These two plans separately cover the union employees at the Elgin, Illinois facility and all other remaining union and non-union employees in the United States. The company also maintains defined contribution plans for its United Kingdom based employees.

16) Restructuring

Commercial Foodservice Equipment Group

During the fiscal years 2020 and 2019, the company undertook cost reduction initiatives related to the Commercial Foodservice Equipment Group including headcount reductions and facility consolidations. These actions resulted in expenses of \$0.5 million and \$7.0 million in the three months ended October 2, 2021 and September 26, 2020, respectively, primarily for severance related to headcount reductions associated with the COVID-19 pandemic and facility consolidations. For the nine months period ended October 2, 2021 and September 26, 2020 the expenses for these actions amounted to \$1.4 million and \$8.6 million, respectively. These expenses are reflected in restructuring expenses in the Condensed Consolidated Statements of Comprehensive Income. The realization of cost savings from the restructuring initiatives began in 2020 with an expected annual savings of approximately \$20.0 million. At October 2, 2021, the restructuring obligations accrued for these initiatives are immaterial and will substantially be complete by the end of fiscal 2021.

The restructuring expenses for the other segments of the company were not material during the period.

17) Share Repurchases

The company treats shares withheld for tax purposes on behalf of employees in connection with the vesting of restricted share grants as common stock repurchases because they reduce the number of shares that would have been issued upon vesting. For the three and nine months ended October 2, 2021, the company repurchased 621 and 14,652 shares of its common stock, respectively, that were surrendered to the company for withholding taxes related to restricted stock vestings for \$0.1 million and \$2.5 million, respectively. These withheld shares are not considered common stock repurchases under the authorized common stock repurchase plan and accordingly are not included in the common stock repurchase totals disclosed below.

In November 2017, the company's Board of Directors approved a stock repurchase program authorizing the company to repurchase in the aggregate up to 2,500,000 shares of its outstanding common stock. During 2020, the company repurchased 896,965 shares of its common stock under the program for \$69.7 million, including applicable commissions, which represented an average price of \$77.70. As of October 2, 2021, 1,023,165 shares had been purchased under the 2017 stock repurchase program and 1,476,835 remain authorized for repurchase.

18) Subsequent Events

On October 21, 2021, the company entered into a five-year, \$4.5 billion amended and restated credit agreement (the "Credit Agreement"). The Credit Agreement amends and restates the company's prior \$3.1 billion credit facility. The Credit Agreement provides for a new senior secured credit facility in an aggregate principal amount of \$4.5 billion, consisting of (i) a \$1 billion term loan facility, (ii) a \$750 million delayed draw term loan facility and (iii) a \$2.75 billion multi-currency revolving credit facility, with the potential, under certain circumstances, to increase the amount of the credit facility by the greater of \$625 million and 100% of consolidated EBITDA for the most recently ended period of consecutive fiscal quarters (plus additional amounts, subject to compliance with a senior secured net leverage ratio), either by increasing the revolving commitment or by adding one or more revolver or term loan tranches. The credit facility matures on October 21, 2026, with the potential to extend the maturity date in one year increments with the consent of the extending lenders. All obligations under the Credit Agreement are secured by substantially all the assets of the company and certain of the company's material domestic subsidiaries, and unconditionally guaranteed by, subject to certain exceptions, the company and certain of the company's direct and indirect material foreign and domestic subsidiaries.

The term loan facility will amortize in equal quarterly installments due on the last day of each fiscal quarter, commencing with the first full fiscal quarter after October 21, 2021, in an aggregate annual amount equal to 2.50% of the original aggregate principal amount of the term loan facility, with the balance, plus any accrued interest, due and payable on October 21, 2026. The delayed draw term loan facility is available for borrowing within one year. The delayed draw term loan facility will amortize in quarterly installments due on the last day of each fiscal quarter, commencing with the first full fiscal quarter after each delayed draw term loan borrowing in an amount equal to 0.625% of the original aggregate principal amount of such borrowing, with the balance, plus any accrued interest, due and payable on October 21, 2026. The Credit Agreement requires the company to satisfy the following financial covenants: (i) a minimum Interest Coverage Ratio (as defined in the Credit Agreement) of 3.00 to 1.00; and (ii) a maximum Secured Leverage Ratio (as defined in the Credit Agreement) of Funded Secured Debt less Unrestricted Cash to Pro Forma EBITDA (each as defined in the Credit Agreement) of 3.75 to 1.00, which may be adjusted to 4.25 to 1.00 for a four consecutive fiscal quarter period in connection with certain qualified acquisitions, subject to the terms and conditions contained in the Credit Agreement. The Credit Agreement provides availability to provide working capital, capital expenditures, to support the issuance of letters of credit and other general corporate purposes, as well as for financing permitted acquisitions. The foregoing description of the Credit Agreement does not purport to be complete and is qualified in its entirety by reference to the Credit Agreement, a copy of which is attached as Exhibit 10.1 hereto.

Termination of Welbilt Merger

As previously disclosed, on April 20, 2021, Middleby, entered into a Merger Agreement with Welbilt, Acquiror and Merger Sub, which provided that, upon the terms and subject to the conditions set forth therein, Merger Sub would merge with and into Welbilt, with Welbilt surviving as an indirect, wholly-owned subsidiary of Middleby.

As previously disclosed, on July 13, 2021, Middleby announced that, under the terms of the Merger Agreement, it would not exercise its right to propose any modifications to the terms of the Merger Agreement and would allow the five-day match period to expire. Accordingly, on July 14, 2021, Welbilt delivered to Middleby a written notice terminating the Merger Agreement in accordance with Section 7.1(c)(iii) of the Merger Agreement and, concurrently with Middleby's receipt of the termination fee of \$110 million in cash from Welbilt, the Merger Agreement was terminated on July 14, 2021.

The termination fee received is reflected in the Condensed Consolidated Statements of Comprehensive Income as the "merger termination fee" and \$19.7 million of deal costs associated with the transaction are reflected in selling, general and administrative expenses in the Condensed Consolidated Statements of Comprehensive Income.

Three Months Ended October 2, 2021 as compared to Three Months Ended September 26, 2020

NET SALES. Net sales for the three months period ended October 2, 2021 increased by \$183.0 million or 28.8% to \$817.5 million as compared to \$634.5 million in the three months period ended September 26, 2020. Net sales increased by \$39.4 million, or 6.2%, from the fiscal 2020 acquisitions of Wild Goose and United Foodservice Equipment Zhuhai and the fiscal 2021 acquisitions of Novy and Imperial. Excluding acquisitions and a disposition, net sales increased \$148.9 million, or 23.7%, from the prior year period. The impact of foreign exchange rates on foreign sales translated into U.S. Dollars for the three months period ended October 2, 2021 increased net sales by approximately \$7.9 million or 1.3%. Excluding the impact of foreign exchange, acquisitions and a disposition, sales increased 22.4% for the three months period ended October 2, 2021 as compared to the prior year period, including a net sales increase of 31.9% at the Commercial Foodservice Equipment Group, a net sales increase of 1.4% at the Food Processing Equipment Group and a net sales increase of 14.2% at the Residential Kitchen Equipment Group.

- Net sales of the Commercial Foodservice Equipment Group increased by \$140.3 million, or 37.8%, to \$511.5 million in the three months period ended October 2, 2021, as compared to \$371.2 million in the prior year period. Net sales from the acquisitions of Wild Goose, United Foodservice Equipment Zhuhai, and Imperial, which were acquired on December 7, 2020, and December 18, 2020, and September 24, 2021, respectively, accounted for an increase of \$18.2 million during the three months period ended October 2, 2021. Excluding the impact of acquisitions, net sales of the Commercial Foodservice Equipment Group increased \$122.1 million, or 32.9%, as compared to the prior year period. Excluding the impact of foreign exchange and acquisitions, net sales increased \$118.5 million or 31.9% at the Commercial Foodservice Equipment Group. Domestically, the company realized a sales increase of \$100.8 million, or 37.9%, to \$366.6 million, as compared to \$265.8 million in the prior year period. This includes an increase of \$14.8 million from recent acquisitions. Excluding the acquisitions, the net increase in domestic sales was \$86.0 million, or 32.4%. International sales increased \$39.5 million, or 37.5%, to \$144.9 million, as compared to \$105.4 million in the prior year period. This includes an increase of \$3.4 million from the recent acquisitions and an increase of \$3.6 million related to the favorable impact of exchange rates. Excluding acquisitions and foreign exchange, the net sales increase in international sales was \$32.5 million, or 30.8%. The increase in domestic and international sales is related to improvements in market conditions and consumer demand, as the prior year period was significantly impacted by the COVID-19 pandemic.
- Net sales of the Food Processing Equipment Group increased by \$2.0 million, or 1.8%, to \$112.6 million in the three months period ended October 2, 2021, as compared to \$110.6 million in the prior year period. Excluding the impact of foreign exchange, net sales increased \$1.5 million, or 1.4% at the Food Processing Equipment Group. Domestically, the company realized a sales increase of \$2.3 million, or 2.8%, to \$84.4 million, as compared to \$82.1 million in the prior year period. The increase in domestic sales reflects growth primarily driven by protein products. International sales decreased \$0.3 million, or 1.1%, to \$28.2 million, as compared to \$28.5 million in the prior year period. This includes an increase of \$0.5 million related to the favorable impact of exchange rates. Excluding foreign exchange, the net sales decrease in international sales was \$0.8 million, or 2.8%.
- Net sales of the Residential Kitchen Equipment Group increased by \$40.7 million, or 26.7%, to \$193.4 million in the three months period ended October 2, 2021, as compared to \$152.7 million in the prior year period. Excluding the impact of the acquisition of Novy, acquired on July 12, 2021, and the disposition, net sales increased \$24.8 million, or 16.8%, as compared to the prior year period. International sales increased \$24.8 million, or 44.8%, to \$80.2 million, as compared to \$55.4 million in the prior year period. This includes an increase of \$3.8 million related to the favorable impact of exchange rates. Excluding foreign exchange, the acquisition, and the disposition, the net sales increase in international sales was \$5.1 million, or 10.2%. The increase in domestic and international sales reflects the strong demand for our premium appliance brands and strength in the European market.

GROSS PROFIT. Gross profit increased to \$299.6 million in the three months period ended October 2, 2021 from \$222.7 million in the prior year period, primarily reflecting higher sales volumes related to improvements in market conditions and consumer demand and favorable impact of foreign exchange rates of \$2.7 million. The gross margin rate was 35.1% in the three months period ended September 26, 2020 as compared to 36.6% in the current year period. Gross profit margins have been negatively impacted by rising costs of many raw materials and inputs, as well as higher labor rates and logistics costs.

- Gross profit at the Commercial Foodservice Equipment Group increased by \$59.8 million, or 46.9%, to \$187.3 million in the three months period ended October 2, 2021, as compared to \$127.5 million in the prior year period. Gross profit from the acquisitions of Wild Goose, United Foodservice Equipment Zhuhai, and Imperial increased gross profit by \$7.1 million. Excluding acquisitions, gross profit increased by \$52.7 million related to higher sales volumes. The impact of foreign exchange rates increased gross profit by approximately \$1.2 million. The gross margin rate increased to 36.6%, as compared to 34.3% in the prior year period. The gross margin rate, excluding acquisitions and the impact of foreign exchange, was 36.6%.
- Gross profit at the Food Processing Equipment Group increased by \$1.5 million, or 3.7%, to \$41.9 million in the three months period ended October 2, 2021, as compared to \$40.4 million in the prior year period. The impact of foreign exchange rates increased gross profit by approximately \$0.3 million. The gross profit margin rate increased to 37.2%, as compared to 36.5% in the prior year period primarily related to higher sales volumes and product mix. The gross margin rate, excluding the impact of foreign exchange, was 37.1%.
- Gross profit at the Residential Kitchen Equipment Group increased by \$15.2 million, or 27.4%, to \$70.7 million in the three months period ended October 2, 2021, as compared to \$55.5 million in the prior year period. The impact of foreign exchange rates increased gross profit by approximately \$1.2 million. The gross margin rate increased to 36.6%, as compared to 36.3% in the prior year period related to higher sales volumes. The gross margin rate, excluding the acquisition and the impact of foreign exchange, was 37.5%.

SELLING, GENERAL AND ADMINISTRATIVE EXPENSES. Combined selling, general and administrative expenses increased from \$128.8 million in the three months period ended September 26, 2020 to \$175.4 million in the three months period ended October 2, 2021. As a percentage of net sales, selling, general, and administrative expenses were 20.3% in the three months period ended September 26, 2020, as compared to 21.4% in the three months period ended October 2, 2021.

Selling, general and administrative expenses reflect increased costs of \$9.4 million associated with acquisitions, including \$2.2 million of intangible amortization expense. Selling, general and administrative expenses increased \$16.9 million related to compensation costs and \$11.9 million related to professional fees, including deal expenses. Higher sales volumes also resulted in increased commission expense. Foreign exchange rates had an unfavorable impact of \$1.3 million.

RESTRUCTURING EXPENSES. Restructuring expenses were \$7.3 million for the three months period ended September 26, 2020 and \$0.8 million for the three months period ended October 2, 2021. Restructuring expenses in both periods related primarily to headcount reductions and facility consolidations within the Commercial Foodservice Equipment Group.

NON-OPERATING EXPENSES. Interest and deferred financing amortization costs were \$13.2 million in the three months period ended October 2, 2021, as compared to \$18.4 million in the prior year period, reflecting the reduction in borrowing levels, the reduction in average interest rates under the Credit Facility and the benefit from the Convertible Notes. Net periodic pension benefit (other than service costs) increased \$1.3 million to \$11.4 million in the three months period ended October 2, 2021 from \$10.1 million in the prior year period, related to the decrease in discount rate used to calculate the interest cost. Other expense was \$0.8 million in the three months period ended October 2, 2021, as compared to other income of \$0.3 million in the prior year period and consists mainly of foreign exchange gains and losses.

INCOME TAXES. A tax provision of \$54.9 million, at an effective rate of 23.8%, was recorded during the three months period ended October 2, 2021, as compared to \$18.2 million at an effective rate of 23.1%, in the prior year period.

INCOME TAXES. A tax provision of \$97.7 million, at an effective rate of 20.2%, was recorded during the nine months period ended October 2, 2021, as compared to \$46.5 million at an effective rate of 23.0%, in the prior year period. The lower rate in the current year is primarily due to several discrete tax benefits, including a deferred tax benefit for the enacted UK tax rate change from 19% to 25% and tax benefits from amended U.S. tax returns, partially offset by a tax charge for state deferred tax rate changes. When excluding the discrete tax adjustments, the 2021 rate was approximately 24.0%.

Financial Condition and Liquidity

During the nine months ended October 2, 2021, cash and cash equivalents decreased by \$16.6 million to \$251.5 million from \$268.1 million at January 2, 2021. Total debt increased to \$1.9 billion at October 2, 2021 from \$1.7 billion at January 2, 2021 primarily due to the adoption of ASU 2020-06 as discussed in Note 4, Recently Issued Accounting Standards, in the Notes to the Condensed Consolidated Financial Statements included in Part I, Item 1 of this Quarterly Report on Form 10-Q.

OPERATING ACTIVITIES. Net cash provided by operating activities was \$346.0 million for the nine months ended October 2, 2021, compared to \$316.2 million for the nine months ended September 26, 2020. During the nine months period ended October 2, 2021, the company received approximately \$67.7 million in a termination fee, net of deal costs and taxes, approximately.

During the nine months period ended October 2, 2021, working capital changes meaningfully impacted operating cash flows. These included an increase in accounts receivable of \$97.4 million due to improved market conditions and increased sales volumes. Also, inventory increased \$134.5 million and accounts payable increased \$61.3 million to support increased demand and to manage supply chain risks.

INVESTING ACTIVITIES. During the nine months ended October 2, 2021, net cash used for investing activities amounted to \$412.7 million. Cash used to fund acquisitions and investments amounted to \$389.0 million primarily for the 2021 acquisitions of Novy and Imperial during the nine months ended October 2, 2021. Additionally, \$29.7 million was expended, primarily for additions and upgrades of production equipment, manufacturing facilities and residential and commercial showrooms. Proceeds on the sale of property following facility consolidation actions generated \$6.1 million

FINANCING ACTIVITIES. Net cash flows provided by financing activities were \$54.4 million during the nine months ended October 2, 2021. The company's borrowing activities during the nine months ended October 2, 2021 included \$64.4 million of net proceeds under its Credit Facility. The company used \$2.5 million to repurchase 14,652 shares of Middleby common stock that were surrendered to the company by employees in lieu of cash payment for withholding taxes related to restricted stock vesting during the quarter. Additionally, the company settled deferred purchase price obligations of \$5.9 million during the nine months ended October 2, 2021.

At October 2, 2021, the company believes that its current capital resources, including cash and cash equivalents, cash expected to be generated from operations, funds available from its current lenders and access to the credit and capital markets will be sufficient to finance its operations, debt service obligations, capital expenditures, product development and expenditures for the foreseeable future.

Recently Issued Accounting Standards

See Part I, Item 1, Notes to Condensed Consolidated Financial Statements, Note 4 - Recent Issued Accounting Standards, of this Quarterly Report on Form 10-Q.

Critical Accounting Policies and Estimates

Management's discussion and analysis of financial condition and results of operations are based upon the company's consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires the company to make significant estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses as well as related disclosures. On an ongoing basis, the company evaluates its estimates and judgments based on historical experience and various other factors that are believed to be reasonable under the circumstances. Actual results may differ from these estimates under different assumptions or conditions and any such differences could be material to the company's consolidated financial statements. There have been no changes in the company's critical accounting policies, which include revenue recognition, inventories, goodwill and other intangibles, pensions benefits, and income taxes, as discussed in the company's Annual Report on Form 10-K for the year ended January 2, 2021 (the "2020 Annual Report on Form 10-K") other than those described below.

Effective January 3, 2021, the company adopted ASU 2020-06, "Accounting for Convertible Instruments and Contracts in an Entity's Own Equity."

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Interest Rate Risk

The company is exposed to market risk related to changes in interest rates. The following table summarizes the maturity of the company's debt obligations:

Twelve Month Period coinciding with the end of the company's Fiscal Third Quarter

	Variable Rate Debt
2022	\$ 21,553
2023	19,051
2024	19,056
2025	1,827,627
2026 and thereafter	288
	<u>\$ 1,887,575</u>

The company is exposed to interest rate risk on its floating-rate debt. The company has entered into interest rate swaps to fix the interest rate applicable to certain of its variable-rate debt. The agreements swap one-month LIBOR for fixed rates. The company has designated these swaps as cash flow hedges and all changes in fair value of the swaps are recognized in accumulated other comprehensive income. As of October 2, 2021, the fair value of these instruments was a liability of \$29.3 million. The change in fair value of these swap agreements in the first nine months of 2021 was a gain of \$16.2 million, net of taxes. The potential net loss on fair value for such instruments from a hypothetical 10% adverse change in quoted interest rates would not have a material impact on the company's financial position, results of operations and cash flows.

In August 2020, the company issued \$747.5 million aggregate principal amount of Convertible Notes in a private offering pursuant to the Indenture. The company does not have economic interest rate exposure as the Convertible Notes have a fixed annual rate of 1.00%. The fair value of the Convertible Notes is subject to interest rate risk, market risk and other factors due to its conversion feature. The fair value of the Convertible Notes is also affected by the price and volatility of the company's common stock and will generally increase or decrease as the market price of our common stock changes. The interest and market value changes affect the fair value of the Convertible Notes but do not impact the company's financial position, cash flows or results of operations due to the fixed nature of the debt obligation. Additionally, the company carries the Convertible Notes at face value, less any unamortized discount on the balance sheet and presents the fair value for disclosure purposes only.

Foreign Exchange Derivative Financial Instruments

The company uses foreign currency forward, foreign exchange swaps and option purchase and sales contracts to hedge its exposure to changes in foreign currency exchange rates. The company's primary hedging activities are to mitigate its exposure to changes in exchange rates on intercompany and third party trade receivables and payables. The company does not currently enter into derivative financial instruments for speculative purposes. In managing its foreign currency exposures, the company identifies and aggregates naturally occurring offsetting positions and then hedges residual balance sheet exposures. The potential net loss on fair value for such instruments from a hypothetical 10% adverse change in quoted foreign exchange rates would not have a material impact on the company's financial position, results of operations and cash flows. The fair value of the forward and option contracts was a loss of \$3.4 million at the end of the third quarter of 2021.

The company accounts for its derivative financial instruments in accordance with ASC 815, "Derivatives and Hedging". In accordance with ASC 815, these instruments are recognized on the balance sheet as either an asset or a liability measured at fair value. Changes in the market value and the related foreign exchange gains and losses are recorded in the statement of earnings.

Item 4. Controls and Procedures

The company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the company's Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to the company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

As of October 2, 2021, the company carried out an evaluation, under the supervision and with the participation of the company's management, including the company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the company's disclosure controls and procedures. Based on the foregoing, the company's Chief Executive Officer and Chief Financial Officer concluded that the company's disclosure controls and procedures were effective as of the end of this period.

During the quarter ended October 2, 2021, there has been no change in the company's internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, the company's internal control over financial reporting.

PART II. OTHER INFORMATION

The company was not required to report the information pursuant to Items 1 through 6 of Part II of Form 10-Q for the nine months ended October 2, 2021, except as follows:

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

c) Issuer Purchases of Equity Securities

	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plan or Program	Maximum Number of Shares that May Yet be Purchased Under the Plan or Program (1)
July 4, 2021 to July 31, 2021	—	\$ —	—	1,476,835
August 1, 2021 to August 28, 2021	—	—	—	1,476,835
August 29, 2021 to October 2, 2021	—	—	—	1,476,835
Quarter ended October 2, 2021	—	\$ —	—	1,476,835

(1) On November 7, 2017, the company's Board of Directors resolved to terminate the company's existing share repurchase program, effective as of such date, which was originally adopted in 1998, and approved a new stock repurchase program. This program authorizes the company to repurchase in the aggregate up to 2,500,000 shares of its outstanding common stock. As of October 2, 2021, the total number of shares authorized for repurchase under the program is 2,500,000. As of October 2, 2021, 1,023,165 shares had been purchased under the 2017 stock repurchase program.

In the consolidated financial statements, the company also treats shares withheld for tax purposes on behalf of employees in connection with the vesting of restricted share grants as common stock repurchases because they reduce the number of shares that would have been issued upon vesting. These withheld shares are not considered common stock repurchases under the authorized common stock repurchase plan and accordingly are not included in the common stock repurchase totals in the preceding table.
